ShiftWise VeriStaff™

CLIENT BENEFITS

With ShiftWise VeriStaff, you can:

- Easily upload and track staff requirements, credentials and documents online.
- Receive e-mail and text notifications for soon to expire and expired staff requirements.
- Instantly reproduce stored copies of all staff documents during audits.
- Simplify the on-boarding and tracking of orientation or training requirements.

ShiftWise VeriStaff allows you to improve productivity and minimize risk of errors by automating the process for managing staff profile information.

With ShiftWise VeriStaff you can now guarantee that all of your staff will remain compliant with health system policies and requirements. Automated system alerts ensure that you stay on top of tracking documents, licenses, tests, immunizations and internal policies.

ShiftWise VeriStaff Benefits:

- *Reduce the time managers spend on tracking staff requirements.*
- *Empower staff to track and manage their own requirements and documents.*
- *Easily access and reproduce staff profile information during audits or information requests.*
- *Safely backup and store all staff information online and prevent accidental loss of information.*

ShiftWise VeriStaff is the smart, low cost choice for managing the documents and credentials of today's workforce. By automating the process, you not only save critical time and effort, you provide the safety and security of knowing that your staff information is backed up and retrievable anytime you need it.

"With ShiftWise VeriStaff, we no longer scramble and stress about Joint Commission visits or other quality audits, we look forward to them! Thanks ShiftWise!"
