

FLEXIBLE STAFFING ON DEMAND | GET CONNECTED

MAKE THE DIRECT CONNECTION

Internal and external staff can directly book to your open shifts via online and mobile devices

What can ShiftWise Connect do for you?

▶ **Engage staff with online and custom mobile tools** featuring job filters, personalized notifications, email, online and mobile shift confirmations and multi-browser compatibility.

▶ **Fill open shifts faster and more efficiently** by reducing the dreaded process of phone tag and concern that staff members do not meet requirements for the assignment.

▶ **Expand the pool of available resources** so healthcare providers can easily communicate with more flexible staff, which lowers overtime and other premium labor costs.

“A happier staff and a smarter way of working leads to time and cost savings.”

-Anne Segura, Baton Rouge General
Director of Employment & HR Services
