New Release: Login Page, Invoice List Page, and Password Security Updates and Fixes
Audience: HDO & MSP
Release Date: 2/7/18

We are pleased to announce the release of updates and fixes!

Login Page Footer

The dates within the footer message were *2003-2013* and have been updated to *2003-2018*. Each subsequent year will now automatically update. The footer also referred to our company name as *ORIGIN, Inc.* This has been updated to reflect *ShiftWise, Inc.*

Before:

After:

Featured ShiftWise Supplier Section

Previously you would see different revolving messages below the customer logo and some of the hyperlinks and were not functioning properly. With this release, you will only see one message and the hyperlink is now directing appropriately.
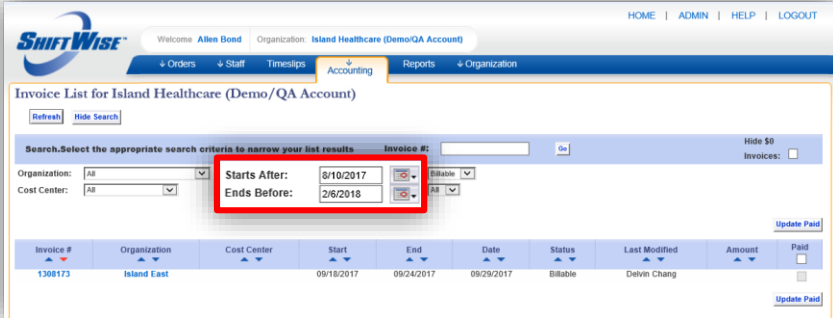

Before:

After:

HDO Invoice List Page

You will also notice an update on the Invoice List page. The date range within the Starts After and Ends Before fields will now display a six month duration. This is the only update on this page, the Billable status default remains.

ShiftWise VMS Password Requirement Change

The password requirements for the ShiftWise VMS Application are changing. At this time, the changes only affect users that make an update to their password. The new requirements for passwords must:

- Be a minimum of 8 characters, and a maximum of 25 characters
- Contain at least 1 number
- Contain at least 1 alpha character
- Contain at least 1 special character (! @ $ & etc.)

Note: you cannot reuse your last five passwords
