

**New Release:** Payment Rcvd (Received) Column on Statement List Page, Default Search Criteria on Timeslip and Order List Pages, Include LT w/o Schedule Default, Misspellings/Grammar Fixes

**Audience:** Supplier  
**Release Date:** 3/8/18

*We are pleased to announce the release of new features, updates and fixes!*

## Payment Rcvd (Received) Column on Statement List Page Fix

Previously, if there was a statement in pending status visible on the Statement List page, the Paid checkboxes were not functioning as expected. With this release, the paid checkboxes can be checked or unchecked as expected.

## Default Search Criteria Update

Previously the 'Date Between' fields on the following pages, were set to a default date range: Timeslip, Per Diem Order, and Long Term Order List Page. With this release, when you first navigate to the page, a message will display requesting that you select the search criteria. Once selected, click the Go button to populate the page.

Sticky filters (field settings within the search area that “stick” based on how the user sets them when navigating from one page to another) remain until the user logs out or their session expires.
